

Houston Business Roundtable's  
OPERATION & MAINTENANCE FORUM

**COATING SYSTEMS FOR CORROSION UNDER INSULATION**  
PE Credit for Continuing Education

**When:** Wednesday, March 10, 2010  
**Time:** 7:30 a.m. – 9:00 a.m.  
**Location:** HBR Office at 8031 Airport Blvd., Suite 118  
**Presenter:** Mr. Bill Earl, International Paint LLC

This forum will examine methods and types of coatings to address the problem of corrosion that forms under insulation in our plant piping systems and vessels. Coatings specialists have been working with industry for years to retard the progression on these corrosion types that rob the economic life of pipe and pressure vessels leaving them more vulnerable to premature failure (before the designed life end).

This forum should count for 1.5 hours for the P.E. Continuing Education Program per the Texas Occupations Code Chapters 1001.202 and 1001.210, Section 131.139 Continuing Education Program. A form will be available to document your attendance.

**OPERATION & MAINTENANCE FORUM REGISTRATION**

**7:30 a.m. – 9:00 a.m. HBR Office March 10, 2010**      **Fee: Free– Members/Subscribers**  
**\$50 – Non-Members**
